Once in Asylum.

Mrs. Koelzer, who had been sent to the psychopathic hospital and later to the asylum at Kankakee, from which she was discharged as cured in March, 1922, suffered from the hallucination that neighbors were "whispering things about her." Her husband, Policenan Keelzer, assigned to the Woodlawn station, was always careful to remove the bullets from his revolver when he returned from duty, but yesterday he forgot.

He left the gum on a table when he went to bed after coming off duty at 8 o'clock in the morning. His wife was complaining of the neighbors as usual. He paid no attention as dwardozing off when she began firing. The first bullet struck him in the chest, in flicting a flesh wound. He dropped to the floor and the other bullets missed him. Mrs. Koelzer then fired a bullet finto her abdomen and was taken to the Michael Reces hospital in a serious condition.

Hilled by Constable.

De Reuiter, who was attending a picnic of the Excelsion club in Justice Grove, was shot to death by James Karnascak, a constable of Justice Park. BIRST AID FOR FRACTURES.

Coming back to fractures. Another thing the war taught was that fractured members must not be left long without some form of exercise or massage. It is good policy to begin bending the joints above and below the fracture and exercising the nearly muscles within a few days after the bongs have been set. The bending exercises and the muscle exercises must be begun cautiously and slow-ly increased, but they must be begun promptly. The fractured bone must be supported and splinted while the exercise is being carried out. Massage and electricity and exposure to sunlight at the same time are beneficial.

Most simple, compound fractures are best handled by simple cleaning and not too much of that, painting with iodine, applying sterile dressings, and applying splints. In many cases, at the time of first dressing, simple sutures are put in without here the

This gigantic clearance sale of Capper & Capper "heart and soul" clothes is a movement looking toward the complete realization of our dream of America's most "exclusive" clothing store

By GBO. H. CAPPER

UR first clearance of Capper & Capper "heart and soul" clothes begins this morning in both of our Chicago storesand our stores in other cities.

Recent achievements of this institution -with which you are quite familiar-make it unnecessary for us to enter into lengthy detail concerning this important selling event. Suffice it to say that it is the most out-of-the-ordinary clearance sale in the history of the clothing business.

There is not a garment in any of our stores over four months old\*-no "left-overs," no "fill-ins," but the most exceptional things

that super-effort and super-intelligence can devise-indeed, the finest clothes in the world. It was necessary to raise the standard of the clothing industry to produce them, and they're now offered for the first time at radically reduced prices.

Check on memory and you will recall that in January last, we stated that not all, but much of our clothing was "exclusive," and that later, practically every garment in the Capper & Capper stores would be "exclusive." This clearance sale is the "third definite step" in the perfection of our new merchandising plan; and the complete realization of our dream.

# The Finest Clothes in America at Radical Reductions

Under the "new order of things" no clothing can or will be carried over from one season to another. Violation of this rule would defeat the very purpose of our plan. Therefore, we offer all Capper & Capper "heart and soul" clothes - with the exception of staple blacks and blues, and tropical weaves, as follows:

All \$45 Suits & Topcoats. \$36 All \$70 Suits & Topcoats. \$56 All \$75 Suits & Topcoats. \$60 All \$50 Suits & Topcoats. \$40 All \$80 Suits & Topcoats. \$64 All \$55 Suits & Topcoats.\$44 All \$85 Suits & Topcoats. \$68 All \$60 Suits & Topcoats. \$48 All \$90 Suits & Topcoats. \$72 All \$65 Suits & Topcoats. \$52

# Crowds Breed Contagion

T TUMAN beings were meant to live in the open, guarded by the prophylactics of sunshine and pure air.

There is always danger of contagion in crowds-in factories, elevators, street cars, theatres.

Doctors and great health institutes have proved that most disease germs pass from one person to another by actual contact. Things which many people touch are always dangerous-car straps, public telephones, door knobs, books, soiled money, stair rails. Germs are carried by hands to mouth, nose or food.

In every crowd there are almost certainly several "carriers" of disease germs.

Health Doctor

says:

To keep well—don't touch things which many other hands have touched—keep

inds away from nose, outh or food—PURIFY

A"carrier" is a person who is perfectly well but who formerly had a mild, undiscovered case of diphtheria, influenza, measles, or some other illness. The person soon recovered and became immune to the disease but the germs multiplied by millions, harmless to the "carrier" but of deadly menace to everyone else. "Carriers" move about in every class of society. There are thousands of them.

If you will purify hands and face frequently with a true health soap, especially after contacts with crowds, there is less likelihood of the germs entering your body through mouth or nose or passing on to your wife and children.

### Lifebuoy Protects

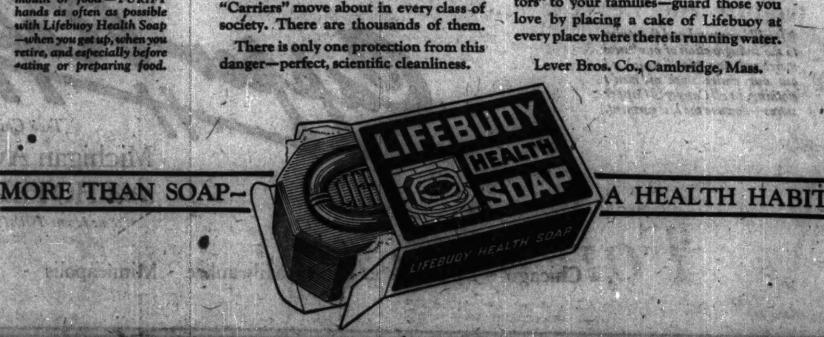

Lifebuoy is a true health soap. Its creamy, copious lather releases a wonderful antiseptic ingredient which goes down deep in every pore, purifying-combating the menace of dirty things.

Soap cannot be made that is more pure, more bland, more beautifying than Lifebuoy. Its rich, nourishing oils of palm fruit and cocoanut keep the skin soft, free from blemishes-and purified.

You know Lifebuoy is a health soap by its wholesome, pungent odor. The odor vanishes quickly-but the protection remains.

Mothers-you who are "health doctors" to your families-guard those you love by placing a cake of Lifebuoy at every place where there is running water.

# A little plain talk

It should be possible for a person to walk into almost any place, where a restaurant sign is displayed, with a sense of certainty that he will be served wholesome food, properly prepared, in immaculate surroundings.

I Surely, that is little enough to ask of a civilization as old as ours. But try it!

He who values that sort of thing exercises, of necessity, the utmost discrimination in his decision as to the place in which to breakfast, lunch or dine.

There is, in the restaurant business, as a whole, too little of the combination of intelligence, skill and conscience essential to proper operation.

Henrici's draws its workers from far and near and insists that each of them shall bring to his task the three essentials, in full degree. No restaurant management, anywhere, better compensates services capable of contributing to the maintenance of the Henrici standard.

Priday is popularly known as "fish day." Not only tomorrow, but every day in the year, no matter how warm the weather, you may eat fish, or any other highly perishable food, in Henrici's, secure in the knowledge that it is served to you in the very perfection of condition -worth while-isn't it?

nnouncement The new ART METAL Showroom now

ART METAL announces the removal of its sales and display rooms in Chicago from 434 South Wabash Avenue to 210 West Monroe Street.

located at 210 West Monroe Street

This change of location has been made to offer every facility to the busy executive and is another step in our efforts to conserve your time.

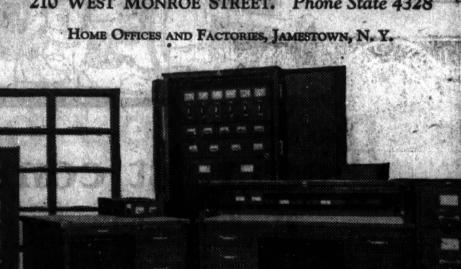

At our new home a complete showing of the latest developments in steel office equipment, safes and files, will be on display at all times. We cordially invite you to inspect our display at your convenience.

The ART METAL branch organization in Chicago includes more than twenty-five specialists and engineers in office methods and arrangement. They will be glad to serve you whether your needs involve the complete equipment of your office, or simply the selection of a single file of the right type for a particular purpose. These men are in position to offer valuable counsel drawn from the thirty-five years of experience our organization has had in equipping offices of every size and kind.

Kids at Algonquin

Have Great Fourth
BY LOUISE JANES BARGHLT.
Of course rules are rules, and fire-crackers are taboo.

But out at Camp Algonquin yesterday everyone had a siorious time. The day was one prolonged plenic. There were special eats And special drinks. And all sorts of special games and races and prizes. And then, in the evening, a program of fireworks to thrill the heart of every boy and strike awe into the eyes of the mothers and the little girls. Besides that there were boat ride. all day and in the evening. Nothing was left undone to make the Fourth a real Fourth for the youngsters.

As one young buster of 8 said, his mouth round with pink ise crasm and fig and date cookies: "This is the swellest day I ever seen, and take it from me, the other kids they feel the same."

TRIBUNE DECISIONS

Michigan City, Ind., July 3.—[Special.]—Another spike was driven into the well known boxing game here to day when Promoter Floyd Fitzsimmons was unable to meet the guarantee of \$15,000 to Lew Tendier of Philadelphia to meet Sallor Freedman of Chicago. As a result, the Quaker city boxer refused to fight and 7,000 fans, who had stood through a heavy rain to watch the semi-windup, left the arena in diagust, sore on boxing in general.

Appording to Phil Glassman, manager of Tendier, the local promoter did

known race horse owner, and he has been deaf and dumb since birth.

Hoover, whom all experts reckoned an easy winner, made a had start, dropping two lengths behind. The American made one of the spurts for which he is renowned in the last 150 yards, but Gollan pulled home a winner by three-quarters of a length, the closest margin seen in the diamond sculls since Guy Nfekalls' famous victory over Gardiner thirty years ago.

HENLEY ON THAMES, England, July 4—[Associated Press.]—Hoover hit a boom with one of his ears in making the course soon after the start and split the blade. He lost sen lengths by the accident, but despite the handleap recovered most of the diame. Loover was loudly cheered when he pulled to the Englishman's boat and congratulated him.

Paul Jones had his following, and Prince K. was at 4 to 1.

It was a truly great race and a great test for the brilliant Prince K. who leaped into the lead at the barrier and made every post a winning one and shattered the Hawthorne track record to score his victory.

Abadane offered the chief resistance, and what resistance it was! Neck and neck, with Paul Jones close up, they tore down the first quarter and around the first turn. At the second turn Prince K., running next to the raff, had a half length margin, with Abadane always close and fighting every inch of the way. As they headed into the backstretch Abadane moved up, and at the half they were inches apart.

#### CALL FOR BONDS IN JULY IS BIG; OF ALL CLASSES

# The Three Tests of a Good Bond

The requisites of a good bond are reducible to these three:

First, Security or safety of the principal invested; Second, Convertibility into cash in case a change of investment or ready cash is desired;

Third, A generous interest yield without sacrificing either steadiness of income or safety of principal.

Federal Securities Corporation has made sure that the bonds listed here for July investment meet these three requirements.

# The North Carolina Joint Stock Land Bank of Durham

5% Farm Loan Bonds

Dated March 1, 1923

Due March 1, 1953

Principal and interest payable at Cantral Union Trust Company of New York and at The North Carolina Joint Stock Land Bank of Durham, Durham, N. C. Interest payable March 1 and September 1. Coupon and fully registered bonds interchangeable. Denominations \$1,000 and \$10,000. Redsemble as a whole, or in part by lot, on March 1, 1933, or any interest date thereafter, at 100 and interest.

The Act of Congress known as the Farm Loan Act, under which the above bonds are issued, provides that Joint Stock Land Bank Bonds "shall be deemed and held to be instrumentalities of the Government of the United States" and that they shall be a lawful investment for all fiduciary and trust funds under the jurisdiction of the Federal Government, and may be accepted as security for all public deposits. A decision of the Supreme Court of the United States, rendered February 28, 1921, fully sustains the constitutionality of this act and the tax exemption features of these Joint Stock Land Bank Bonds.

cents per week for men and 12 cents for women.

These figures will not be very popular among American "budgeteers" and social workers, who have shown by their figures that the bulk of the American people are dead, because they can't live on what they earn. The Australian riving wags "—one phase of the framework of socialism upon which the Labor party has trussed up Antipodean business—is no longer popular with labor. But even yet it is doubtful whether a majority of Australians have discovered that you cannot create wealth by passing laws. The state fetich is hard to shake. Facts are not the sovereign cure they have been assumed to be.

We recently have been discovering through intelligence tests that there are a gveat many people who have no means of recognising or understanding facts. Although some Australian states are selling a few bankrupt state factories, others are going in for more dops. The failure of the legislators to make two plus two equal ten is ascribed to conspiracy by capitalists and profiteers.

If America is to escape the Australian to expert manufactured? It was once, anyway.

Europe's insatiable appetite for relief and loans has dulied the American appetite for pictures of oversea. Utopies, but seent additions to the United States mate are pedding many wondrous sto-ies of how much better they order it broad. Many Americans are yet agape or yarns of escalist Sinbads.

How we fail for that stuff may be orth a little reminiscence. Back in 165 advocates of the "heaven born rape" told us that the land of Porficial was the proper model for poor retionary Uncle Sam.

#### ELECTRIC ROADS SHOW PROGRESS

Review and Analysis

### Illinois Central Railroad Co.

With map Showing Physical Property and Connections

IN selecting the Illinois Central for review and discussion, the choice was inspired, not alone by its position as typical of the best of our transportation systems, but primarily because of the unusual strides made by this property in recent years.

Prepared from official sources, the review clearly indicates that probably no transportation system of the country is better equipped, both physically and financially, to meet the current transportation needs.
